The Art of Renaissance Florence and Rome

SYLLABUS

Course description

Florence, originally founded by the Romans, was governed by the Medici family for centuries. Most of them had a passionate interest in painting, sculpture, architecture, and literature. Still Florence keeps an exceptional artistic heritage, which is marvelous evidence of its aged culture. Florence is the most marked example of Renaissance cities in Italy. Nowhere else in Italy does one find this multitude of buildings and works of art from this period. Among the cultural highlights is the magnificent cathedral (Santa Maria del Fiore), churches that contain breathtaking frescocyli, renowned museums (e.g. Uffizi, Bargello, Accademia), and impressive city-palaces (e.g. Palazzo Strozzi; Palazzo Rucellai; Palazzo Pitti, Palazzo Medici-Riccardi) and Palazzo Vecchio, the famous city hall. Apart from stimulating lectures the Summer School program also includes a day trip to Rome.*

Assignment

Chapel Report

6 pages of text (not including images)

Please follow the formatting outlines given for the research paper

1: Read Turner's "A Family Chapel", pp. 36-40

2: Choose a chapel in any church in Florence as the subject of this 6 pages report.

"How do I choose my chapel?" Let your choice be guided by your curiosity and your interest – those who choose to treat a chapel simply because it is covered well in a book rarely get a good grade. This project is very much about developing a critical, enquiring eye by carefully looking at and analysing space, and doing some basic research combined with some educated guesswork. Spend time at your chapel, not just in the books, and visit your chapel on more than one occasion in order to study it well and to see it under varying conditions.

3: Research in a basic way the name, history and function of the chapel, and the identity of as many of its components as you can manage. The objective is to write a 6 page report giving a descriptive account not just of the chapel's decoration (including any painting, sculpture, stained glass, furnishings, tomb slabs, etc) but more importantly to give a sense of how all of those components fit together in a single context.

What kinds of spatial and visual relationships exist between the various components of the chapel, and how do these relate to the requirements of the church and the patrons?

4: Illustrate your report with:

- photos of or copied images of the chapel
- a hand-drawn diagram of the chapel
- a hand-drawn plan/map of the chapel

Annotate these where appropriate.

Here's a checklist of just some of the things to look out for, and remember that your chapel has probably been altered a great deal since the Renaissance, and so some detective work and a keen eye will serve you well:

- Steps, arches, doors, doorways, gates, grills...
- Frescoes (walls and ceilings), panel paintings, stained glass windows and statues...
- Funerary items like tomb slabs, commemorative plaques...
- Tabernacles, recesses, niches, shelves...
- Coats of arms, shields, portraits, text...
- Benches, tables, chairs, kneelers...
- Banners, drapes, flags, lamps, candle holders...
- Signs of restoration and/or renovation...

Look out too for leaflets and brochures in the church where you found your chapel.
